HIT HIM ON THE HEAD

George Braunberger Gets After His Friend.

BURNS AND AMOS AGAIN

The Pair Arrested in the West End for Disturbing a Religious Meeting—Two Ironclad Men Who Came to See the Show—Police Court Doing a Paying Business.

When Squire Manley looked over the docket at city hall yesterday morning he found that there was more than one unfortunate in the bare cells across the hall.

George Braunberger is the name of a man who lives at the house of Alonzo Riggs on Second street. His roommate is Isaac Potts, and it was because of him that Braunberger was then in durance vile. Potts claims that when he entered the room near midnight of Saturday, Braunberger sprang from the bed, and struck him a heavy blow over the left eye. It made a gash two inches in length, and Potts decided that it formed an incident which could not be passed as a jest. Officers Wyman and Supplee were called, and the fighter placed in jail. As no charge had been placed against him he was not called in.

Elsworth Sanor and James Walters acknowledged that they were from Ironclad, and were drunk in the opera house on Saturday night. Officer Welsh noticed that instead of enjoying the play they were disturbing all others in the balcony, and took them out. When he reached the Diamond he found that they could not be handled with ease. The patrol was called, and they were given a ride to city hall. Squire Manley decided that the men should contribute \$6.75 each to the cause, and upon payment they were released, a sorrowing pair.

Louis Stark became the victim of Officer Jennings on Saturday evening, and was locked up. Stark was very drunk, and was making himself odious to a number of persons in a Sixth street restaurant. When called to account he could make no defense, and the squire asked if he had \$5 about his person with which to pay for his fun. He frankly acknowledged that he was without the amount, and was then informed that he must go to the works. With sorrow showing in every line of his countenance, he was led across the hall to await the coming of Mayor Gilbert.

John Burns and Charley Amos were brought in from the West End yesterday by Officer Golden because of a little matter in which they were much more interested than pleased. They were found in the neighborhood of the Presbyterian chapel so drunk that they failed to appreciate the importance of the occasion, and members of the congregation declared they were disturbing the meeting. The charge placed against them was that of being drunk and disturbing a religious meeting, the most serious offense that they have ever been called to face in that court.

John Wilson and John Herley, the men who were arrested for throwing beer kegs and bricks at a Franklin street saloon, were provided with writing materials yesterday, and each sent a letter to friends in Pittsburgh asking that money be sent to save them from the workhouse. They believe their friends will save them.

Albert Shenton, who has been in jail for several days awaiting the return of Mayor Gilbert, told that official this morning that he believed his father in New Cumberland would release him if he knew of his plight. The mayor will let the parent know the news, but if the money is not forthcoming there will be a new inmate of the workhouse in a day or two.

Last week Patrick Murphy came here from Ironclad and was arrested because of a little money transaction in a barber shop. He gave security to appear today for a hearing, and was expected all day.

Had Relatives Here.

The Toronto woman who met death Saturday by burning, was formerly a resident of this city, where her husband worked as a potter. She was standing on a chair near the fireplace when her dress caught the flame. She ran screaming from the house into the yard, and rolling around in the snow succeeded in extinguishing the fire. She was so badly burned, however, that she died on Saturday.

Will Hear a Preacher.

Manager Frank Swaney, of the telephone company, received word Saturday to ship all the receivers, used in the long distance openings, to Spring-

field at once. The company have completed lines to that place, and propose to give the people a novel entertainment next week. One of the largest churches in the city has been secured, and the receivers will be placed in the pews so that the audience can hear a famous divine in New York deliver a sermon.

Laid to Rest.

The funeral of Mrs. Hardwick, who died Thursday night at the home of her daughter, Mrs. William Barker, Seventh street, took place from the Methodist Protestant church yesterday afternoon at 2 o'clock. Reverend Whitehead delivered a touching sermon. The remains were laid to rest in Riverview cemetery.

Funeral services over the remains of Mrs. Daniel L. Smith were held in Long's Run church at 11 o'clock yesterday morning, and a number from this city attended. The remains were interred in the church cemetery.

The funeral of Mrs. Richard Swaney, who died Thursday night after a brief illness, took place from the Catholic church at 9 o'clock this morning.

They Will Not Fail.

In speaking of the Conkell case, the Canton Repository says:

"That a man so well known as the principal character could suddenly disappear in a community where his form and features were unusually familiar, and leave no trace behind him, is a fact in itself so startling as to prove absolutely shocking. That the officers may use the grappling hooks of the law so efficiently and untiringly that the murderers may be speedily brought to justice, is the wish of not only the community, but of the lovers of good government. Failure in such a case would mean a menace to public safety."

His Luck Changed.

William Simms, who resides near the Bell school house, read the account of the condition of his brother, Thomas Simms, in the News Review the other day, and yesterday came to the city and took the unfortunate man to his home in the country. Thomas Simms is the man who was found in a wretched condition in an old shanty in California hollow by Humane Agent Lloyd, but his brother knew nothing of it until he saw the case in print, and decided that the Calcutta trustees need not bother themselves about it.

Captain Simms Has Resigned.

Capt. J. H. Simms has sent in his resignation, and Lieut. Walter Supplee is in command of Company E. He has been ordered by Colonel Geyger to assemble the boys in the rink next Thursday evening in heavy marching order for inspection by Capt. J. M. Burns, Seventeenth United States infantry. The company will drill tomorrow evening in the rink, orders having been posted in the armory. As yet no election has been ordered for the selection of an officer to fill the place of Captain Simms.

Opinions Differ.

The annual discussion as to whether the fruit has been killed is well under way, and farmers in the surrounding country are giving their opinions. One well known tiller of the soil said that there would be no fruit in the lowlands and very little on the hill tops as the frost had sadly nipped the buds. Another, equally well informed, told the News Review that the buds had had no opportunity to develop, consequently they were not injured, and there would be an abundance.

No Sign of a Break.

The warm weather has had little effect on the ice in the river, and teams continue to cross without danger. The ice shows no sign of breaking, and old residents say that it will take several days of strong sun to unlock the fetters that bind the waters. This is the weather earnestly hoped for by the rivermen, as it will permit the ice to rot and move out without a flood. A heavy rain would be disastrous.

Making a Channel.

The Charley Hook did not continue its work of cutting a channel yesterday, but the men were hard at it at an early hour this morning. The opening froze over after the boat passed, and teams were crossing near the ferryboat this morning. The ice between the boat and the shore is almost two feet in thickness, something phenomenal, the boatmen say.

Home From the East.

Mayor Gilbert arrived home this morning from the east where he was called last week to attend the funeral of his father. He at once assumed control of city affairs, and Squire Manley stepped down and out after a week of little to do.

AT THE OPERA HOUSE

An Immense Audience Present on Sunday Night.

EVANGELIST SLAYTER'S ADDRESS

The "Great Salvation" Urged Upon a Great Mass of Apparently Deeply-Interested Hearers—Four Persons Confess the Savior.

The Grand Opera House was filled with an appreciative audience on Sunday night, attracted by the announcement of evangelistic services, under the auspices of the Christian church of this city. A large and efficient choir, composed of members of the church, occupied the stage and rendered service of song, to piano accompaniment by Miss Jackson, adding much to the pleasure of the occasion. At 7:30 Leader Scott stepped to the front and announced the hymn "All Hail the Power of Jesus' Name," the audience joining in the grand old Gospel song. This was followed with "I Love to Tell the Story."

Reverend Huffer, pastor, read as a Scripture lesson the first chapter of Hebrews and four verses of the second chapter. The choir rendered "At the Cross." Rev. P. H. Jones, of Wellsville, led in prayer. Rendition of "Glory Be to God in the Highest." Then came the call for the offering. Pastor Huffer remarking that East Liverpool audiences were not a disappointment in this particular. Solo by Mrs. J. C. Thompson, "Jesus, Lover of My Soul." The sweet notes, under the control of the highly cultivated voice of this gifted lady, echoed throughout the building, carrying to the large audience the blessed assurance that the Savior loves all mankind, and that "whosoever will" may come. Surely gospel song, as thus sung, is a power for good. Evangelist Slayter took as his topic the first four verses of the second chapter of Hebrews. His words rang out with power, and his plea for "the great salvation" was listened to with deep attention. He stated that he would not use the stereotyped request that all of the vast audience present who desired to go to heaven should hold up their hands, as every sane person desired to go to heaven, if there is a heaven and if there is a hell; that he had traveled far and wide and addressed vast audiences, and that he had never yet looked in the face of a person who desired to go to hell. Then came a strong plea for the application of individual salvation; that no man or woman should speak of this great blessing for some one else, or give to his neighbor the pearl of great price, but should apply it to himself—to his individual self, to his own heart, to his own life, for his own soul's sake. The speaker then spoke of the remission of sins, showing how the great God pleads with men and women to abandon their sins, which surely lead to eternal death and separation from heaven, and accept this grand salvation, without money and without price; accept Christ and the glory of eternal life—life forever in the presence of God and His angels. The evangelist gave many touching illustrations of the wonderful sacrifices which had been made by holy influences for the salvation of sinners and the redemption of the human race, finishing with an eloquent word portrait of the Savior's trial. Of His being given into the hands of the cruel persecutors, of the ascent of Mount Calvary and of the crucifixion of the Son of God. The price had been paid—it was finished, the atonement had been made; and "whosoever will" may have the gift of eternal life.

Mrs. Thompson sang, amid the deepest silence, "Softly and Tenderly Jesus is Calling."

The evangelist then made a further plea to sinners, asking that men and women should come forward and confess their need of the Savior. Four persons, three ladies and one gentleman, came forward and made confession of faith and were greeted with the right hand of fellowship by Pastor Huffer, in appropriate and touching language. After this came the singing of the doxology and Reverend Slayter dismissed the audience with the benediction.

She Almost Fainted.

A lady whose name was not learned almost fainted at the opera house last night. Her friends saw her plight, and were at a loss to know what to do, until Officer Jennings appeared with some water, and by its judicious use prevented a scene.

That Survey Bill.

The bill which Doctor Ikirt introduced into congress providing for \$30,000 to be spent in finding a feasible line for a ship canal from some

point near Cleveland on Lake Erie to the Ohio river has never been considered. It was given in the hands of a committee, and when they met it was found there were four bills dealing with the subject. From those they evolved another bill containing some of the features found in that of Ikirt, and it was placed on the calendar, but it will never be reached this session.

Patrick Broke His Leg.

Patrick Hester, a lad who resides with his parents near the brewery, was coasting on Saturday night on an icy hill in that part of town, and dared his companions to slide down a particularly dangerous portion of the hill. As not one would try it Patrick decided to take the ride himself, but his sled soon became unmanageable, and ran into a post. When Patrick was lifted from the ground it was discovered that the bones of his left leg were broken below the knee. A physician was called and he was made as comfortable as possible.

Chelsea Shut Down.

A special from Cumberland says that "the Chelsea China company has closed down indefinitely on account of dull trade. The management gives the men no assurance as to when the concern will resume, and the workmen are advised to accept other situations if they can be secured. The closing is said to be due to the inability of the Chelsea company to secure a compact of rates with other manufacturers which will allow a profit on production. Four hundred men are thrown out of employment."

They Sent Her Home.

Eva Meyers, the girl who was sent by the trustees to the infirmary from the home of the Women's Christian Temperance union, induced the authorities at Lisbon to transfer her to New Cumberland where, she said, there were friends to care for her. When she got there she was arrested under the vagrant law, and sent to the home of her father in Pennsylvania. The unfortunate girl would have spared herself trouble and the county expense if she had gone home from this place.

Testing the Engines.

The powerful engines that are to work the machinery of the Ohio Valley Gas company near Burgetstown were tested yesterday, and found to work very well. This afternoon the pumps will be tested, and it is possible that gas will be forced through the mains tonight although this has not yet been determined. The plant is perhaps the most complete and expensive ever erected in this country, and much interest is manifested in the outcome of the test.

Two Races.

Woolmaker and Mears skated before a large crowd at the Fifth street rink on Saturday night, the former doing half a mile on one leg, while the other did a mile backward. Woolmaker won by three laps.

Delaney and Morrow raced a mile in Wellsville on Saturday night, Morrow winning the race by a few feet. Delaney had the race won, when his foot caught in the skate of a lady who sat close to the track, and he fell.

Coming Events.

The members of the Phoenix club are arranging for a dancing party in the rooms of the organization tomorrow evening.

The social session of the Elks on Wednesday evening will be the great event of the season for the jolly members and their friends. Elaborate preparations are being made, and the program is expected to eclipse anything of the kind ever given by the organization.

Extended to Wellsville.

Officers of the Typographical union have received word from the headquarters in Indianapolis that the jurisdiction of the organization here has been extended to Wellsville, and all the offices in that place can be presented with the scale which prevails in East Liverpool. The union will hold a meeting tonight for the purpose of considering the time when the scale will be presented.

Called to Salsineville.

Doctor Laughlin was today called to Salsineville in consultation with a physician of that place. The patient is a traveler, who is so ill at the St. Cloud hotel that it is feared he cannot recover. All his friends are with him, but the physicians think he cannot survive.

Moved to Town.

W. W. Rook has moved his family and household goods from Somerset, Pa., to this city. The population continues to grow, and the scarcity of dwellings is noticeable.

IN MCGREGOR'S CELL

Witzeman of Leetonia, is Now in Jail.

HE HAD NOTHING TO SAY,

But Did Not Seem at All Affected by the Fact That He Will Likely Remain in Jail Until Some Time in May—New Evidence Said to Have Been Found.

Special to the News Review.

LISBON, Feb. 19.—Contrary to expectation and the announcement of the authorities, Witzeman, the Leetonia man charged with murder, was not brought to the county seat on Saturday night. It was expected that the marshal would bring him in on the evening train, but they kept him locked up in Leetonia over Sunday, and brought him here today at noon. He does not seem to be bothered by the position in which he is placed, and walked with a firm step when taken from the car. There will be no special grand jury to try his case, but he will remain in jail until the matter is considered in May. The case will probably be given an early assignment in the term as was the McGregor case. It has been learned here that new testimony was discovered since the arrests, but what this is no one seems willing to tell. A report is current that Dutch Joe has given out something of importance, but whether that is a vagary from Leetonia or has its birth here in the county seat is another mystery. If new testimony has been discovered, it may relate to the body of Conkell, which has or has not, according to who does the talking, been found. Attorney Warren, who defended Witzeman, was here this morning in conference with Prosecutor Speaker. When Witzeman was brought to the jail he was given the quarters so long occupied by McGregor. He was not affected in any way, and while not seeming at all communicative, he looked around with no little curiosity. It seldom happens that a cooler or a more possessed prisoner is brought to the jail.

Settling Accounts.

Special to the News Review.

LISBON, Feb. 18.—The accounts set for hearing today were as follows:

Third in the estate of J. J. Windle showing a balance of \$576.16 which was ordered distributed. Third in the estate of Samuel Richardson with balance of \$139 due the executors. First in the estate of G. W. Entrian. No balance. Final in the estate of G. H. Clark with balance of W. F. McIntosh showed \$72.23 to be distributed. Second in the estate of M. Nichol, with \$194 to be distributed. Final in the estate of Ida Scott. No balance. First in the estate of J. A. Quay, with \$6.57 due the administrator.

Wearry of Married Bliss.

Special to the News Review.

LISBON, Feb. 18.—Mrs. Flora Straub, of East Palestine, is weary of married life, and this morning asked the court to legally separate her from Fred C. Straub, her husband. She says that during the time they have lived together he has been cruel to her, and at times his conduct has been brutal. A number of cases are specified, and if the petition recites facts it is probable that Fred will soon be without a wife.

Not Guilty.

Special to the News Review.

LISBON, Feb. 18.—The Zoellars boys were arraigned in court this afternoon with the others indicted by the grand jury, and declared that they were not guilty. J. H. Brookes was chosen to defend Baltzer, and Attorney Martin will look after Charles.

Huston, the Clearkson boy, charged with larceny, plead guilty, and was fined \$25 and costs.

Watch the Half Dollars.

A counterfeit half dollar was taken at the store of George Wucherer on Saturday. It is a poor imitation made of lead, and dated 1892. The milling is perhaps the worst part of the coin, and would not be mistaken by anyone who gave the coin a second glance. The money was passed by a young man who evidently knew what he was about since he placed the better side of the coin uppermost on the show case, and left the store as soon as his purchase was made.

A Long Standing Account.

Business in the offices of the various justices is very slow today, but one case being entered in the court of Squire Rose. In that case the American Radiator company ask that W. J. Martion be compelled to pay them \$288.27, the balance of an account of long standing. They also want interest. The trial will take place on Thursday of this week.

MR. REED may discover eventually that he made a costly error when he attempted to help Democracy out of the mire.

If the Republican convention goes to Columbus, Judge Nash will have won an enviable position in the race for gubernatorial honor.

The south is shivering with cold. Last year it was shivering because of five cent cotton, and strange to relate that same trouble is still staring the planters out of countenance.

If the mayor of Leetonia is as bad as he is painted by the Reporter he should not only be impeached, but a few of the good sisters of the village should pray with him for a season?

THERE are various little incidents connected with the last sale of bonds which, it seems, would look so ugly in print that the Washington correspondents of Democratic papers are saying nothing about them.

THE NEWS REVIEW believes that no taxpayer should cast his vote at the primaries without first considering well the qualifications of the men on the ticket. There are many in the field, good men who will make good officials, but the chaff should be separated from the wheat, and only the best selected.

EVERY MAN'S DUTY.

In one of the speeches which Governor McKinley made in New York he is quoted as saying:

"Interest in public affairs, national, state and city, should be ever present and active, and not abated from one year's end to another. No American citizen is too great and none too humble to be exempted from any civic duty, however subordinate. Every public duty is honorable."

The sentiment expressed in this small paragraph contains the duty of the American citizen. It shows that every man should not forget how much he owes to the government in which he is such a powerful factor. It asserts that every voter must care for his own interests by keeping pace with the progress of public movements, and by watching the men who are paid for representing him. It is true beyond doubt that every public duty is honorable, but many men forget their allegiance to their constituents, and neglect to remember that anything but salary is connected with political preferment. Governor McKinley stands foremost among the clean politicians of the day, and can well afford to utter the sentiment of those few lines.

JAPS' GREAT VICTORY.

Official Dispatches Confirm Success at Wei-Hai-Wei.

LAND AND SEA FORCES SURRENDER

Admiral Ting and Two Other Officers Committed Suicide, After the Former Accepted the Japs' Terms—15,000 Chinese Troops Repulsed by Gen. Nodzu.

YOKOHAMA, Feb. 18.—An official dispatch from Wei-Hai-Wei has been received here. It states that in response to the offer made by Admiral Ting, the Chinese naval commander, to surrender his vessel if conditions of amnesty were granted Admiral Ito, commander of the Japanese forces, demanded that the naval station be thrown open. The Chinese messenger who conveyed this demand returned to Admiral Ito and informed him that Admiral Ting had committed suicide on the night before and that his responsibility had been transferred to Captain McClure, formerly the master of a British merchant vessel, who had been appointed by the Chinese government as assistant to Admiral Ting.

A dispatch from Field Marshal Oyama, who is in command of the Japanese military forces at Wei-Hai-Wei, announces the complete surrender of the Chinese on land and sea. He also announces that Admiral Ting and two other officers committed suicide, after addressing a letter from the Chinese flag ship accepting the Japanese demands. The Chinese soldiers garrisoning the forts on the island of Liu Kung Tao, the last of the defenses of Wei-Hai-Wei to hold out against the Japanese, and the sailors of the Chinese fleet were to be taken beyond the Japanese lines and liberated, while the captured officers and the foreigners will be conveyed away by ship before they are given their liberty.

A dispatch from General Nodzu, commander of the First Japanese army in Manchuria, says that 15,000 Chinese, with 12 guns, attacked Hai-Cheng from the Lao-Yung, New-Chwang and the Jinkao roads. They were repulsed, leaving over 100 dead. The Japanese loss was five killed or wounded.

JAPS ORDER BATTLESHIPS.

They Will Have Two Better Than Our Best Ones.

WASHINGTON, Feb. 18.—The Japanese seem to have solved for themselves the question as to the relative merits of the battleship and cruiser, which is now agitating congress in connection with the proposition to provide for the construction of three new battleships. While their cruisers, owing to superior strategy in their management and great wariness in attack, supplemented by the indispensable torpedo boat fleet, have managed to obtain victories over the Chinese fleet in two cases, the battleships of the Chinese, even with better management and personnel, have given such a good account of themselves as to make it apparent to the Japanese that if ever they hope to meet another naval power in combat with chance of success they must themselves possess some of the great battleships.

It is regarded as a foregone conclusion that they will acquire the Chinese battleships Chen Yuen and Ting Yuen (of the latter can be raised) by conquest. But the Japanese government is not content to rest there, for advice received by the navy department show that they have placed contracts for building two great ships that will exceed the best of our own ships in offensive and defensive power.

To Confer With the Emperor.

LONDON, Feb. 18.—A dispatch to The Times from Tien Tsin says that Li Hung Chang, who has been appointed a peace envoy to Japan, will go to Peking on Feb. 21 to confer with the emperor. He will return to Tien Tsin in two weeks and will then proceed for Kobe.

A Collision on the Santa Fe.

GUTHRIE, O. T., Feb. 18.—The Texas express and a through cattle train on the Santa Fe collided in Deadman's cut, five miles south of here. The freight was coming around a short curve so that headlights could be seen until within 80 feet of each other. The passenger engineer jumped and saved his life, as did the freight freeman. Freight Engineer Charles Upley jumped, but his head struck the rocky side of the cut and he was killed. Passenger Fireman Patrick Coldron was caught in the cab and scalded so badly that he died.

The Khedive Hostile to England.

LONDON, Feb. 18.—The correspondent of The Times at Cairo says there is reason to believe that the khedive is determined to get rid of the ministry of Nubar Pasha and to render impossible any ministry similarly inclined to work amicably and loyally with the British representatives. The khedive is much influenced by a Paris journalist who openly promised France's armed resistance.

General Booth Warmly Received.

BOSTON, Feb. 18.—General Booth, commander-in-chief of the Salvation Army, addressed three big mass meetings at the Mechanics' building Sunday. In the evening the hall was crowded to its utmost capacity and it is estimated that his hearers numbered at least 25,000 people during the day.

Three Firemen Hurt.

AKRON, O., Feb. 18.—During the progress of a small fire here Firemen George Butten, Frank Nieswander and Harry Townsend were caught by a falling chimney. The two first named were so badly hurt that they will probably die. Townsend was badly bruised, but will recover.

All Maritime Powers Will Be Invited.

BERLIN, Feb. 18.—Invitations will be issued by the government to all the maritime powers of Europe and America to send warships to take part in the naval display and the fetes which will take place on the opening of the Baltic and North Sea canal, on the 18th of June. It is understood that President Faure will accept the invitation to be present at France. The emperor is taking a keen interest in the opening of the new canal. It is expected the opening will serve to bring back the waning prosperity of Lubeck, Dantzic, Stettin and other German ports. The fetes will be on a grand scale and will last several days.

Confessions Secured by Torture.

SAN FRANCISCO, Feb. 18.—The Call prints the following from Honolulu: The success of the government of Hawaii in conducting its treason cases was due to the incrimination evidence given by Captain William Davies of the steamer Waimanolo. Davies, although an American, was not allowed to see the American minister. He was strung up by the thumbs until he made a confession. A young native, who was known to be intimate with Carl Wilderman, was handcuffed at the wrists. Then he was placed in a tank of ice cold water, and finally confessed.

A Negro's Foolish Suicide.

CHARLESTON, S. C., Feb. 18.—Detective Easterling undertook to arrest John Stewart, a negro, with 15 others for gambling on the street. He ran to a cistern on a private lot, lifted the cover and jumped into the water, which came to his breast. The detective begged him to come out, promising that he would not arrest him. Stewart's mother was brought to the scene and begged her son to come out without avail. When he was finally secured in spite of his resistance he was found drowned and frozen beyond recovery.

Skater Johnson Beaten.

MINNEAPOLIS, Feb. 18.—John S. Johnson, the breaker of unnumbered records, was compelled to lower his colors at Normanna rink to Peter Ostlund, the champion of 1,440 yards. DEMOCRATS ALARMED.

Appropriation Bills Not All Through the Senate.

THE END OF THE SESSION IS NEAR.

Republicans Declare They Will Not Block Them—Don't Want to Be Responsible for an Extra Session—Only Two Left in the House.

WASHINGTON, Feb. 18.—There is beginning to be a slight uneasiness on the Democratic side of the senate that some of the appropriation bills may fail. There remains only 12 working days of the session, and four of the most important of these bills are still entirely unconsidered in the senate. These are the Indian, sundry civil, the legislative and the general deficiency bills, each of them considered as more likely to afford ground for debate than any of the appropriation bills which have already received attention. This anxiety is not yet, however, very pronounced. It would be more marked but for the fact that it is generally believed that the Republicans are sincere in their protestations that they do not desire to prolong debate sufficiently to cause the failure of any of the bills and thereby render themselves amenable to the charge of making an excuse for an extra session. The Democratic managers expect to gain considerable time by moving at an early day for 11 o'clock sessions, and following this soon by prolonging the daily sessions into night.

The probabilities for any general legislation such as that proposed in the pooling, territorial admission, Pacific railroad, navy personnel and bankruptcy bills, are growing smaller and smaller every day. There will be a strong effort to get up and dispose of the pooling bill, but there will be determined opposition, and some of its best friends are growing discouraged over the prospect. The probabilities for the week also include a cursory discussion of the territorial bills, but the prospects are all against their passage. There are several financial bills and resolutions which may be called up, and the rules of the senate permit such latitude of debate that a financial speech may be injected at any time and regardless of the measure in hand.

But two appropriation bills are yet undisposed of by the house, the naval and general deficiency. The former has been considered for two days and it will probably require two more days this week. The general deficiency which will follow will take up two days. Conference reports will consume the rest of the week unless another opportunity is given to the Pacific railroad committee to secure a vote on the funding bill which has been again reported favorably with an amendment in the shape of a proposition for the Union Pacific to settle the account with the government by the payment of the principal of the debt due. Among the bills upon which action will be asked under sus-

pension of the rules is the bill reported from the committee on pensions to equalize the pay of Mexican veterans.

Big Lumber Firms Responsible.

DULUTH, Minn., Feb. 18.—A suit which promises sensational developments has been begun in the district court, resulting from the indictment at Grand Rapids of George Lydick. The suit is the first of a series involving a theft of 2,300,000 feet of timber, supposed to have been stolen from government and reservation land in the last two years. Lydick himself admits he has trespassed for a year and a half. Big lumbering corporations will receive the state's attention when the defendants explain the situation and give the names of the parties for whom they were working. The amount to be recovered is over \$50,000.

That is the need of the hour."

BROOKLYN STRIKE OFF

of L. Assembly No. 75 Declares It Ended.

100,000 LOST IN THE STRUGGLE.

It Caused Intense Suffering and Inconvenience—The Majority of the Strikers Will Likely Be Taken Back—The Strike Still On.

New York, Feb. 18.—District assembly No. 75 has called off the strike on Brooklyn Heights and the Brooklyn, Queens County and Suburban railroads. This action will permit the strikers of roads to return to work, or at least to be taken back. Some of them will not be taken back immediately, because new men have been taken on and some of these men the companies will not be taken back before they are in proper shape to be run out. The majority of the strikers will undoubtedly be taken back in time. The strike against President Norton of the Atlantic Avenue line is still on.

The strike, which has lasted 34 days, cost an enormous amount of money. The loss of time and money is considered by some directly involved a moderate estimate. When the strike started it was estimated that District Assembly No. 75 had lost \$100,000 in its treasury. About \$65,000 was subscribed by sympathizers. All this has been spent in the \$350,000 wages the men would have earned has been lost. The Brooklyn Heights Railroad company was the heaviest loser among the roads. It is estimated to have lost directly \$600,000. The other systems have lost close to \$100,000. The cost to the city and the loss of time and money is expected to exceed \$1,000,000. The damage done by cars damaged by inexperienced motormen is estimated at \$100,000 more, and the loss of earning capacity by the militia during the stay in Brooklyn is conservatively estimated at \$50,000. Special officers and deputies, cost Kings and Queens counties \$50,000, and the loss to the business men of Brooklyn is considerable when placed at \$700,000. There were many other losses to swell the amount in addition to the inconvenience and the suffering caused by the strike.

Ready to Pounce on the Island.
BETHLEHEM, Pa., Feb. 18.—From private sources received here it is learned that there is trouble brewing for the island of San Domingo. The president of that island, it is stated, has been acting with a high hand in seizing the funds of some French merchants. The French will also claim indemnity for the death of one of their countrymen. The French now have five men-of-war at Hayti ready to pounce down on the island, and it is feared will blockade the port, if they do not resort to more extreme measures.

The surgeons think they can save the foot, but at first it was doubtful.

An Inquest Over Zufall.
CHICAGO, Md., Feb. 18.—A coroner's inquest has been held on the body of Grant W. Zufall, the young man from Maryland, Pa., who was found frozen in the ice of the canal near here. The verdict was not rendered. It is thought the man tried to board a freight train and fell into the canal. The finding of money and his gold watch on his person goes away with the theory of foul play.

Mathews Not After Gray's Place.
INDIANAPOLIS, Feb. 18.—In referring to dispatches sent out that he had been fired by the Mexican minister, Governor Mathews said: "The story is without foundation. McBRIDE IS UNSCATHED.

The Miners Fired His Traducer From Their Convention.

COLUMBUS, Feb. 18.—Mark Wild got a very black eye in the miners' convention Saturday, and John McBride secured a formal vindication. The following was adopted by an overwhelming vote: "Whereas, The charges against the officers of our organization were without any foundation whatever, and the charges made by Mark Wild against president McBride were but the monthlings of a demagogue who should not be permitted to enter a convention of honest men.

"Resolved, That we are satisfied that our officers have been honest and earnest in their work for the miners of the country, and we express our utmost confidence in them.

"Resolved, That Mark Wild be not permitted to enter this convention while it is in session."

Wild attempted to make a speech, but was silenced by the hooting of the delegates, and requested by the chairman to leave the hall, which he did.

Irwin Probably Acquitted.

PITTSBURGH, Feb. 18.—The jury in the case against George M. Irwin, the discretionary pool operator, for false pretenses, returned a sealed verdict which will be opened some time today. The purport of the verdict is not known, but it is believed to be acquittal, but the defendant to pay the costs. There are a number of additional indictments hanging over Mr. Irwin's head, and it is doubtful if acquittal on the charge of false pretense will cause the prosecution to abandon the other charges.

W. H. MELLINGER, the Leetonia man
who has been in the city for several days, soundly roasts a local unreliable sheet for misquoting and misrepresenting him regarding the Leetonia school matter. He says the interview was enlarged wonderfully, and he was put in an entirely false light, and thinks that had he really said what the sheet claimed he did he would have been a fool.

People who have observed the skaters of this city during the winter
say that there are few in town who can cut a fancy figure. Men and women who can skate long distances and be almost fresh when they stop, can be found in abundance, but the fancy skater making pigeon wings, writing his name and cutting flowers on the ice is not found as in many other towns of Ohio. This is one thing East Liverpool has neglected.

People who do not want to pay the Pennsylvania company one cent more
than is actually necessary have hit upon a new scheme whereby they save a few cents on a round trip ticket to Pittsburgh. They purchase a ticket from this place to Rochester for \$1 and one from there to Pittsburgh for the same amount. As the round trip rate from this city to Pittsburgh is \$2.35 they save 35 cents by the operation. Occasionally they miss a train at Rochester, but the delay is not long, and they can afford it.

The ladies interested in the home founded and operated by the Women's Christian Temperance union

In addition to these a number are fed at every meal, making the persons coming directly under the influence of the society much larger than it was first thought could be accommodated. The home is paying expenses.

and as it is now in good working order, it is expected that results will not be a great while in appearing.

More candidates were in town on Saturday than have been seen in many days,
and some of them remained until Sunday. It is gradually dawning upon the patriots who would be sheriff that Chief Gill is developing great force in Liverpool.

Frank I. Simmers, the traveler for the Specialty Glass company,
has left for a trip which will take him through the big cities of the north and west. The gentleman was almost the last traveler in town, all the others being in their respective territories working for orders.

The beautiful weather of yesterday filled the streets,
and caused many to appear in spite of the slush and water, which seemed to cover every spot reached by the sun. The congregations at the different churches were larger than have been seen for weeks, all services being very well attended.

The township trustees are receiving a few applications daily for aid,
but the number is nothing to that of two weeks ago. The bill of the trustees to the county this month will be large, owing to the rush during the blizzard, but as compared with February, 1894, the amount is nothing.

Members of the Beaver Falls council who were in town the other day,
went home and told the newspapers that our system of water works is real nice. They were surprised to learn that during their absence some citizen had been protesting in court against the town having the new works it so badly needs.
